

## **Mission statement**

American Health Education is dedicated to providing high-quality, hands-on training to those who wish to start or advance their healthcare careers. We offer a variety of weekday and weekend courses in emergency services, continuing nurse education, and fire officer advancement.

We are committed to preparing our students with the knowledge, skills, and competencies necessary to excel in their field, and are proud to foster graduates who go on to save lives and serve in their communities.

## **Core Values**

American Health Education wants to help you take the next step in your career. Our vision is to provide outstanding education that prepares students for real-world challenges and professional advancement in the EMS, nursing, and fire vocations. We live our core values to provide our students with an excellent experience at our school:

1. **Integrity:** Our goal is to ensure that all education is conducted in an honest and ethical manner, adhering to all state educational requirements.
2. **Student Service:** From registration to graduation we provide personal service in a setting primed for learning. Our class sizes offer a low student-to-teacher ratio, providing opportunity for students to closely interact with instructors and an administrative staff who are readily available to assist.
3. **Academic Accomplishment:** When our students are successful, we are successful. Our students are a direct reflection of our instructors, staff, and programs. We rally behind our EMT students, nursing, and fire professionals, offering guidance as they work to achieve their academic and career goals.
4. **Instructor Excellence:** Our instructors are field-experienced professionals who meet educational and practice criteria, demonstrating deep knowledge of subject matter and offering cutting-edge curriculum in their areas of expertise.
5. **Community-Focused:** We take pride in providing an alternative learning path for students and professionals who provide much-needed emergency, medical, and fire services in our local communities.

## **Educational objectives:**

### Emergency Medical Technician

The following objectives have been established for the Emergency Medical Technician program based upon California EMS Authority and the National Registry of Emergency Medical Technicians. They adhere to the Department of Transportation's National Standard Training Curricula:

- Develop the EMT-B student to understand the career field of Emergency Medical Systems and the roles and responsibilities of the EMT-B in the EMS field.
- Provide the EMT-B student the knowledge, skills, and ability to provide top-level care while functioning safely and effectively in the pre-hospital environment.
- Ensure the EMT-B student demonstrates competency and proficiency in basic EMT skills with each patient he/she encounters.
- Prepare the EMT-B student to successfully complete the National Registry Licensure Examination.

### Monitor Technician

- Equip students with the knowledge, skills, and competencies to successfully complete the Monitor Technician training program.
- Prepare students for the responsibilities of providing quality patient care as a Monitor Technician.

### Continuing education & career advancement:

- Provide courses related to direct/indirect patient care that enhance knowledge and technical skills required for practice that meet or exceed licensure requirements.
- Offer training and education in fire protection methods and responsibilities through instruction of the OSFM State Fire Training courses.
